Attach six planks (2) to four base frames (1) to create tread and seat platforms by using bolts (7) and nuts (8). Note that all fixing lugs on base frames face inwards.

Attach 3rd seat plank (3) (with notch cut beneath) to the assembly in step 1 by using bolts (7) and nuts (8) as illustrated.

Install the backrest plank (4) onto frame fixing plates as illustrated. Fasten the backrest plank (4) with hexagonal bolts (7) and nuts (8). Ensure the fixing plates are installed in the right place on backrest plank.

Attach the long flat bar (5) to fixing plates by using bolts (9) and nuts (10) as illustrated.

Attach six flat bars (6) to the back of base frames (1) by using bolts (11), washers (12) and nuts (13) as illustrated.

Tighten all hexagonal head bolts with spanners and appropriate tools. Then completely tighten the M12 dynabolts to attach the whole assembly firmly to the ground.
