

Avoca Cantilever

Modular Shelter

The Avoca Cantilever Shelter is an addition to the Avoca Range. It can stand alone as a spacious 4m x 4.5m sheltered unit or connect modularly to span up to 80 metres, forming seamless covered walkways. Ideal for councils, schools, universities, and venues, it provides scalable shade and reliable all-weather coverage to suit a wide range of outdoor needs.

Certifications:

- Australian Made and designed product.
- Structurally Certified
- ISO 14001
- ISO 9001
- ISO 45001

Features:

- **Scalable Solution** – Single unit of 4m x 4.5m, or connect up to 80 metres to create continuous walkways.
- **Durable Finishes** – Available in a variety of Dulux powdercoat colours for the frame.
- **Choice of Louver System** – Select the original simple slat design or a perforated sheet metal option, with opportunities to customise the sheet metal with your logo, artwork, or unique design.
